GENERIC PERMIT TO MOVE LIVE PLANT PESTS OR BIOLOGICAL CONTROL AGENTS

Date:

Scientific Names of Pests to be Moved	Classification	Life Stage	Major Host	Dates of Movement

Permittee:

Method of Dispersement:

APPLICABLE STANDARD PRECAUTIONARY MEASURES FOR MOVEMENT OF LIVE PLANT PESTS OR BIOLOGICAL CONTROL AGENTS

1. All pests must be shipped in sturdy, escape-proof containers.
2. No propagative host plant parts are to be shipped with approved organisms unless the organisms normally live within the propagative plant part.
3. Without prior notice and during reasonable hours, authorized WDATCP regulatory officials shall be allowed to inspect the conditions under which the pests are kept or the locations(s) at which the organism(s) are to be released.
4. Permittees moving field collected organisms must take all precautions to prevent the spread or movement of any non-permitted organisms and/or diseased or parasitized individuals.

This permit is valid until _____
